 Subject: Distribution of OIG information
 Date: Thursday, September 14, 2017 8:54:48 AM

Hello Mr. Gray and good morning. I spoke to Ronnie Crossland about the best way to provide the public information about the OIG's role in detecting and deterring fraud, waste, and abuse.

In the aftermath of Katrina and Sandy, the OIG responded to several complaints/allegations from the public, and I am sure we will see the same since Harvey came ashore in Texas.

In an effort to help prevent fraud and to assist the OIG in responding timely, I am asking your assistance with one of the following options listed below:

1. Provide an informational fact sheet about the OIG to all response contractors and to citizens in the affected areas when EPA employees have the opportunity.
2. Post OIG information on the response.epa.gov website.
3. Simply add a link to the OIG's webpage for Hotline Complaints.

I noticed there is information how to report environmental violations, but nothing about matters regarding the OIG. Please let me know who we should work with to complete this small task.

Thanks always.
